Hardwarespezifikationen

CPU

CPU Modell Intel ATOM C3538

CPU-Architektur x64 64-bit

CPU-Frequenz Quad Core 2.1GHz

Speicher

Speicher 8GB SO-DIMM DDR4 [Kompatibilität \(https://www.asustor.com/service/memory?id=memory&lan=ger\)](https://www.asustor.com/service/memory?id=memory&lan=ger)

Speichermodul, vorinstalliert 8GB (1 x 8GB)

Gesamte Speichereinschübe 2

LOCKERSTOR 8 (AS6508T)

Hardwarespezifikationen

Speicher erweiterbar bis zu	64GB (2x 32GB) Installationsanleitung (https://s3.amazonaws.com/download.asustor.com/download/docs/Memory_Installation/AS65_Series_Memory_Installation_Guide_EN) <ul style="list-style-type: none"> Support mixed capacity
-----------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Flash-Speicher	4GB eMMC
----------------	----------

Speicher

Festplatte	8 x SATA3 6Gb/s; 3.5"/2.5" HDD/SSD ⓘ Kompatibilität (https://www.asustor.com/service/hd?id=hd&lan=ger)
------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

M.2 Festplatteneinschübe	2x M.2 PCIe (NVMe) / SATA *M.2 2280, 2260, 2242. Installationsanleitung (https://s3.amazonaws.com/download.asustor.com/download/docs/Memory_Installation/AS65_Series_M.2_SSD_Drive_Installation_Gui) Kompatibilität (https://www.asustor.com/service/m2ssd?id=m2ssd&lan=ger)
--------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Maximale interne Rohkapazität	144 TB (18 TB HDD X 8, Kapazität kann je nach RAID-Typen variieren)
-------------------------------	---------------------------------------------------------------------

Max. Laufwerksfächer mit Erweiterungseinheit (https://www.asustor.com/product/AS6004U)	16
---------------------------------------------------------------------------------------------------------------------------------------------------	----

Maximale Rohkapazität mit Erweiterungseinheiten ⓘ	288 TB (18 TB HDD X 16, Kapazität kann je nach RAID-Typen variieren)
---------------------------------------------------	----------------------------------------------------------------------

Externe Ports

Erweiterung	USB 3.2 Gen 1 x 2
-------------	-------------------

Netzwerk	10 Gigabit Ethernet x 2 (10G/1G); 2.5 Gigabit Ethernet x 2 (2.5G/1G/100M)
----------	------------------------------------------------------------------------------

Ausgang	N/A
---------	-----

andere

Systemlüfter	120mm x 2
--------------	-----------

LCD-Panel	✓
-----------	---

Netzteil/Adapter	250W x1
------------------	---------

Eingangsspannung	100V to 240V AC
------------------	-----------------

Zertifizierung	FCC, CE, VCCI, BSMI, C-TICK
----------------	-----------------------------

LOCKERSTOR 8 (AS6508T)

Hardwarespezifikationen

Betrieb

Stromverbrauch 66.9W (Betrieb);
37.2W (Festplatten-Ruhezustand); ⓘ

Geräuschpegel 22dB (HDD Leerlauf)

Betriebstemperatur 0°C~40°C (32°F~104°F)

Feuchtigkeit 5% to 95% RH

Größe und Gewicht

Größe 215.5(H) x 293(W) x 230(D) mm

Gewicht 6.2 (kg) / 13.67 (lb) [Lieferumfang \(package_contents?p_id=63\)](#)
